

Feedback analytics of reinforced flat slab design calculator

1. How likely is it that you would recommend this calculator to a friend or colleague?

4 responses

2. How user-friendly is the reinforced concrete flat slab design web calculator?

4 responses

3. How satisfied are you with the reliability of this calculator?

4 responses

4. Clarity of the input.

4 responses

5. Clarity of the output.

4 responses

6. Which code do you prefer for designing a reinforced concrete flat slab?

4 responses

7. If eurocode 2 is used for the design of the reinforced concrete flat slab, to what extent do you agree on the design procedure found of the description of the calculator?

4 responses

8. How sufficient is the input (Load, safety factor, dimension and material property) to design a reinforced concrete flat slab?

4 responses

9. How accurate is the analysis and design results output?

4 responses

10. Do you have any thoughts on how to improve this calculator?

1 response

Its only limited to coefficient method of design that made it inclusive
